

Dear Watchung School District Community Members,

The Watchung Board of Education will be looking for a strong educational leader with a passion for teaching and learning, curriculum and instructional practice, and student achievement and growth, as well as financial and budgetary acumen.

Community participation in the Principal search, as well as the forthcoming Superintendent search, is extremely important. We will work together to hire educational leaders who are committed to ensuring *Excellence on the Hill* for all of our children and staff. Community input from parents, staff and administrators gained through the Survey process will be instrumental in guiding the search processes. Insights gained through survey results, as well as focus groups, will be used by the Principal Search Committee comprised of representative stakeholders in creating a candidate profile, shaping interview questions and candidate review documents. Survey results will be compiled and analyzed by New Jersey School Boards Association Field Service Representative, Gwen H. Thornton.

**To participate in the Watchung Borough Principal Search 2018: Community Survey, please click on the following link or copy and paste it in your browser:**
