The Watchung Borough Board of Education invites you to attend an input forum to help us identify characteristics we will be seeking in our new permanent superintendent.

The Board of Education has retained the services of Hazard, Young, Attea and Associates (HYA), a highly regarded education consulting firm specializing in recruitment and placement of executive leaders, to assist us in securing a strong leader.

Dr. Dwight Pfennig, HYA Senior Associate, will be facilitating the forums and gathering information from district parents and residents that will be used in creating a *Superintendent Leadership Profile Report* to guide the search process.

We hope you will attend!
