January 10, 2020

Dear Parents/Guardians:

Kindergarten registration will open on Monday, February 3rd at Bayberry Elementary School. A registration and medical form are enclosed. **Please bring the completed Registration Form along with birth certificate and proof of residency on the day of registration.** Children must be 5 years of age by October 1, 2020 to enter Kindergarten in September 2020.

We require that each incoming kindergarten child have a completed physical examination prior to entering school. Have your physician complete the medical form at the time of examination, and mail or bring the form to school before school begins in September. The mandatory immunization requirements include:

- Hepatitis B vaccine - 3 doses HepB vaccine OR laboratory evidence of immunity.
- DPT - 4 doses with one dose given on or after the 4th birthday OR any five doses.
- Polio - 3 doses with one dose given on or after the 4th birthday OR any four doses.
- Measles - 2 doses of a measles containing vaccine OR laboratory evidence of immunity, if born after 1/1/90 and entering school at the kindergarten level OR 1st grade level.
- Rubella & Mumps - One dose rubella vaccine OR laboratory evidence of immunity.
- Varicella (Chicken Pox) - Every child born on or after 01/01/1998 must have received at least one dose of the Chicken Pox Vaccine OR laboratory evidence of immunity.

***Influenza - 1 dose for children before entering Kindergarten**

Kindergarten screening will take place in August 2020. Your child will remain in the screening room for approximately thirty minutes. Parents will remain at school during this time.

We look forward to this mutually beneficial experience, which will enable our staff to better prepare your child for a smooth transition to Kindergarten.

Sincerely yours,
Jill Dobrowansky
Principal
